Records preservation receipt

Fictional Briarhollow Analytics | 10 April 2026

To the review coordinator: this receipt records the preservation action. The audit date remains unconfirmed; the relative wording below is intentional.

After the audit, Liora Wren asked employee relations to preserve the allocation history.

The three accounts carried monthly target billings of $8,000, $6,500 and $5,500, totaling $20,000. Their removal lowered the available book to $12,000 against an unchanged $32,000 target. The allocation export lists 'director override' as the reason. The earlier quarterly review was meets expectations. There may have been client requests outside this packet; no client instruction is attached. Timing supports a question about retaliation, not a finding of motive.

The signed audit report and an independent copy of the source register are still requested. This receipt is not a certification of the underlying allegations.
